

JABRANE MOUAD

Engineer student in geomatics and surveying engineering

About Me

Hello! I'm JABRANE MOUAD. I am passionate about Geomatics sciences. I am a skilled **GIS analysis and Remote sensing processing** and master of geospatial tools such as QGIS, ARCGIS, POSTGRESQL. I am a quick learner and a team worker that gets the job done.

Bio

 **Age**

25

 **Email**

jmouad25@gmail.com

 **Skype**

username@skype.com

 **Phone**

+212678509531

 **Address**

Hay Acharaf, Lot Al Arssa, Bloc 3,N°3,RDC,Beni Mellal

Professional Skills

ArcGis, QGIS, Global Mapper,

MASTER

Python, R, Statistica, SQL

EXPERT

HTML, CSS, JavaScript

ADVANCE

Microstation, Autocad

ADVANCE

FARO SCENE, 3DReshaper, CloudCompare

MASTER

GNSS Solutions, TBC

EXPERT

Pix4Dmapper, Agisoft Metashape

EXPERT

3Ds max

BEGINNER

Work Experience

Full time Cartographer at ANCFCC Rabat, Morocco

Dec, 2018 - Jan, 2021

Bachelor's final year project at GEOSPHERE services Temara, Morocco

May, 2019 - June, 2019

The development of a final year project reflecting the power of spatial analysis of Geographic Information Systems and Python to find possible problems at the level of the sewerage network.

Vocational training final year project at GEOSPHERE services Temara, Morocco

Apr, 2018 - June, 2018

The creation of a spatial database and a plugin managing the needs of a surveying office using QGIS 3 software.

Education

○ **Third year of geomatics and surveying engineering from Agronomic and Veterinary Institute Hassan II Rabat, Morocco**

2020 - 2023

The three years of engineering train engineers capable of solving problems and developing solutions related to geodesy, topography, photogrammetry, remote sensing, GIS and cartography.

○ **First year Master in Geospatial Sciences and Land Governance from Agronomic and Veterinary Institute Hassan II Rabat, Morocco**

2019 - 2020

The Master makes it possible to prepare future generations capable of finding adequate solutions and of thinking scientifically about land governance from the acquisition of information through new technological solutions.

○ **Bachelor's degree in Geoinformatics and Land Modeling Faculty of Sciences Meknes, Morocco**

2018 - 2019

The aim of the Bachelor is to train geomatics specialists mastering the different processes of geographic information processing.

○ **Vocational training in surveying from Institute of specialized technician in surveying Meknes, Morocco**

2016 - 2018

○ **First year, option Physics and Chemistry from Faculty of Sciences Beni Mellal, Morocco**

2015 - 2016

High school diploma from High school Hassan II Beni Mellal, Morocco

2014 - 2015

Baccalaureate in physics and chemistry with first class honors.
